Your Petitioner, INCYTE CORPORATION, hereby disclaims the terminal part of the term of any patent granted on the above identified patent application which would extend beyond the full statutory term, as shortened by any terminal disclaimer, of U.S. Patent 5,914,393, and hereby agrees that any patent so granted on the above identified patent

application shall be enforceable only for and during such period that the legal title to U.S. Patent 5,914,393 shall be the same as the legal title to any patent granted on the above identified patent application, this agreement to run with any patent granted on the above identified patent application and to be binding upon the grantee, its successors or assigns. In making the above disclaimer, Petitioner does not disclaim any terminal part of any patent granted on the above identified patent application, prior to the full statutory term of U.S. Patent 5,914,393 as defined in 35 U.S.C. §154-§156 and §173, in the event that U.S. Patent 5,914,393 expires for failure to pay a maintenance fee, is held unenforceable or is found invalid in a final judgment by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims canceled by a reexamination certificate or as a result of an interference proceeding, or is otherwise not deemed to provide the rights conveyed by 35 U.S.C. §154, prior to the full statutory term of U.S. Patent 5,914,393 as defined in 35 U.S.C. §154-§156 and §173, except for the separation of legal title stated above. Further, Petitioner does not disclaim any terminal part of a patent granted on the above identified patent application that would extend beyond the present termination of U.S. Patent 5,914,393, in the event that such present term is extended by virtue of compliance with the conditions for term extension of any present or future patent term extension provisions of the patent law, including but not limited to 35 U.S.C. §155, §155A or §156, and without waiving Petitioner's right to extend the term of a patent granted on the above identified patent application to the extent provided by law.

The undersigned, being the Attorney of Record for the above identified patent application, and duly authorized to act on behalf of Petitioner, certifies that she has reviewed the Assignment attached as APPENDIX A, and to the best of her knowledge and belief, legal title to the above identified patent application and U.S. Patent 5,914,393 rests with Petitioners, INCYTE CORPORATION.
